CURATORIAL STATEMENT

KALEIDOSCOPES 2025

CERAMIC EXHIBITION

Kaleidoscopes bring together the work of 30 South African ceramic artists in a celebration of pattern, repetition, distortion, and reinvention.

The clay forms have been pushed, pinched, cast, coiled, and carved into objects that reflect a diverse spectrum of voices and visions.

Each mark, hue, and form carry intention. Whether bold and exuberant or quiet and subtle, these works invite us to listen to what they say through colour, line and shape.

It is an invitation to see ceramics not as static objects, but as part of a dynamic visual language.

Curious Entanglements;
Expressive Vessels by Eugene Hön.

"Hön's approach is multimodal. Intricate drawings of mycelium in ballpoint pen are digitallyaugmented with the assistance of graphic designer Dominic Hobbs, fudging, repeating,contaminating and insisting upon fractal iterations which are then printed onto vessels which are themselves distortions of the ceramic vessels, caked with dried fragments of discardedslip cast bodies."
